QUALITY ASSURANCE

- Tampa Bay's #1 home builder for over 40 years
- WCI is the only home builder with a dedicated Quality Assurance Department
- Quality Assurance walks each home before stucco is applied to make sure all openings are sealed and the scopes of work for product applications were followed per the Lennar guidelines
- Quality Assurance Team walks the home again before drywall is installed to ensure all internal components are in place per design and to the highest Lennar quality standards
- Quality Assurance walks the home a final time before the closing to ensure the highest Lennar standards are consistently delivered to our customers
- WCI's Quality Assurance Director has regular scope of work review meetings with our building partners to ensure that all Lennar guidelines are followed on a consistent basis
- All new products or changes are reviewed and approved by the Quality Assurance Department before the change is made
